

Teknion tables & collaborative spaces

Teknion: integrated design. infinite possibilities.

Teknion embraces change and its inherent possibilities. Our culture is one of innovation.

A diverse, yet integrated product line allows companies to adapt to new forms of work as they unfold. Teknion products perform independently and in concert, combining in virtually unlimited configurations that fit new needs as the world's economies and cultures evolve.

At Teknion, we seek to realize the power of design to enhance our ability to interact with one another and our world.

Teknion creates furniture that connects people, technology and spaces. Integrated design with unlimited possibilities for the future of business.

Tables & Collaborative Spaces overview

More than ever, companies are making the shift from individual work areas to shared workspaces that encourage interaction. Consequently, companies are designing space and selecting furniture to reflect today's team-based corporate culture.

Teknion has designed the Tables & Collaborative Spaces program to help

meet the demand for a variety of collaborative workspaces that support the exchange of information.

The program comprises a comprehensive collection of tables, plus a complementary portfolio of versatile storage and work tools to outfit each space to meet specific needs.

Teknion offers not only tables of diverse shapes and sizes, but also a full spectrum of finish options from laminates to natural veneers. The program permits different levels of built-in power/data capability and direct integration across the Teknion product portfolio.

Advantages

CREATING COLLABORATIVE SPACES

With tables in an array of shapes and sizes, the Tables & Collaborative Spaces program makes it possible to design workspaces that encourage interaction, teamwork and problem-solving through:

- Dedicated spaces – boardrooms, meeting and training rooms
- Informal gathering areas – lounge and dining areas
- Workspaces – private offices and workstations

FINISHES

- Extensive finish options include natural veneers, Teknion Flintwood veneers, laminates and painted MDF that coordinate with systems furniture to create a unified look throughout the office
- Finish program allows users to tailor furniture to varying budgets and the desired aesthetic
- Greenguard® Certified for Indoor Air Quality
- FSC-certified wood is also available
